

EPIQ™

REMOTE MONITOR YOUR GRAIN

REVOLUTIONIZING SMART STORAGE

EPIQ grain monitoring solution is simple, durable, and smarter than ever. It's built to protect your grain and maximize profits.

What Makes EPIQ Different?

- Long-term protection and great ROI
- Installs anywhere with no power or strong cell signal required
- Accurate readings for better grain control
- Fits any operation with quick install and easy expansion
- Trusted solution that protects your harvest and improves efficiency
- Reliable support from an experienced team

A bold new era in grain management begins with **OPI EPIQ**, a sleek, sharp advancement from our industry-pioneer, OPI BLUE. Offering the same zero-entry solution and purpose-driven data points for in-grain moisture, temperature and CO₂.

Engineered for simplicity and savings, EPIQ eliminates the need for a communication box, drastically reducing entry cost compared to other solutions on the market. Its lightweight design and streamlined setup make installation fast, while its rugged build, enhanced magnetic connections, and extended battery life ensure lasting reliability at the bin.

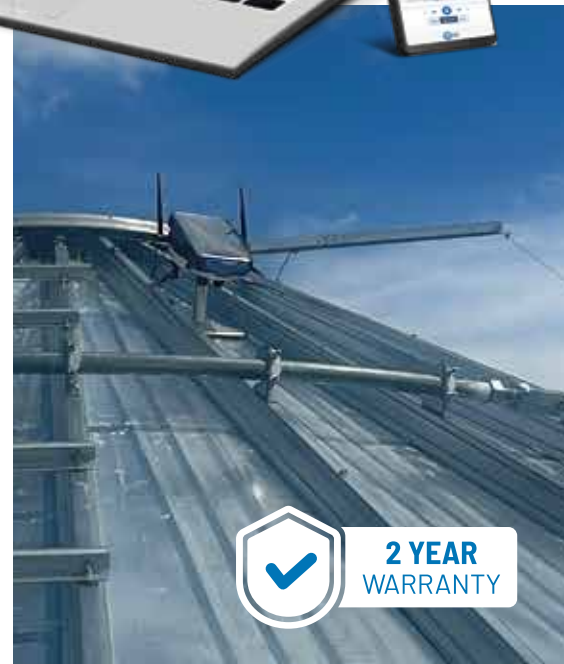

Modern design. Reliable performance. Affordable ownership.

Want to upgrade or add grain management? Here's what it takes:

1. Schedule a site visit and receive a free ROI report.
2. Confirm site specifications and product selections.
3. Schedule Installation.
4. Explore and train on managegrain.com with the support of your Dealer and OPI.
5. Harvest and load grain into your bin, then set your targets.
6. Easily see progress from any internet connected device.
7. Enjoy the profit/savings from your targeted sale!

ADVANCING
Grain Storage
Management

OPI EPIQ is a part of the OPI system of products driven to help you maximize grain management for your operation.

This system provides options for technology at every level of comfort.
